

Impact of COVID-19 on the Canadian Economy and Consumer Sentiment - as of DECEMBER 14, 2021

To better understand the impact of COVID-19 on the economy, the consumer mindset and to inform marketing recovery strategies, Destination Ontario has accessed various economic, public attitude and behavior studies.

EXECUTIVE SUMMARY AS OF DECEMBER 14, 2021:

According to Destination Canada's Resident Sentiment Towards Visitors Survey Report, Updated December 14, 2021

- Ontario's overall positive sentiment towards visitors from other parts of the province decreased on all measures over the last month:
 - 69% of Ontarians would welcome visitors from nearby communities
 - 63% of Ontarians would welcome visitors from other parts of Ontario
 - 56% of Ontarians would welcome visitors from other parts of Canada
 - 26% of Ontarians would welcome visitors from the U.S. and 21% from other international destinations

According to Destination Canada's Resident Sentiment Survey Report, Updated December 14, 2021

- Ontario's perception of travel safety decreased on all measures towards travel within or outside of Ontario
 - 81% of Ontarians feel safe when thinking about travelling to nearby communities
 - 75% of Ontarians feel safe when thinking of travelling within Ontario
 - 60% of Ontarians feel safe when thinking of travelling to other parts of Canada
 - 26% of Ontarians perceived safety as much lower when thinking about travelling to the U.S. and 22% to other international destinations

DESTINATION ONTARIO

*According to Destination Canada's Sentiment Toward Tourism Advertisement Survey Report,
Updated December 7, 2021*

- Ontarians are receptive to the promotion of their community to other nearby communities, and to the rest of Canada and Ontario. Ontarians are unreceptive to the promotion of their community to the U.S. and international markets
- Provincial receptivity score is based on the net level of happiness Ontarians experience when seeing their community promoted to each target market. Net happiness level is calculated as the total “very happy” and “happy” responses minus total “very unhappy” and “unhappy” responses
 - Ontarians’ overall receptivity of promoting their communities as a travel destination in other nearby communities in Ontario is net positive of +30; therefore, promotion in alignment with local travel guidelines should be considered when possible.
 - Ontarians’ overall receptivity of promoting their communities as a travel destination in other parts of Ontario decreased from +34 in November 2021 to +26 in December 2021
 - Ontarians’ overall receptivity of promoting their communities as a travel destination in other parts of Canada decreased from +23 in November 2021 to +13 in December 2021
 - Ontarians’ overall receptivity of promoting their communities as a travel destination in the US remains negative, decreasing slightly from -16 in November 2021 to -18 in December 2021
 - Ontarians’ overall receptivity of promoting their communities as a travel destination internationally remains negative, decreasing from -18 in November 2021 to -28 in December 2021

According to Google Travel Intent Survey Online Poll Results Ending December 10, 2021

- Canadian overall travel intent decreased on most measures since the last month
 - 12% of Canadians are looking to book a domestic trip in the next three months
 - 16% of Canadians are looking to book a domestic trip after a year from December 10, 2022
 - 14% of Canadians are interested in travelling within 20 miles of their home
 - 25% of Canadians are interested in a major city travel destination
 - 15% of Canadians are interested in a small-town travel destination

DESTINATION ONTARIO

According to Google's Global Travel Intent Survey based on data as of December 10, 2021

- In the UK, Germany, and France, less than a third of the citizens polled in each country intended to book an international trip within the next year

ECONOMIC & TRAVEL OUTLOOK

COVID-19 has caused a significant negative impact leading to noticeable changes in public behaviour. Destination Canada is tracking public attitudes and behaviour in Canada to assist organizations in their strategic and tactical planning. The research also includes Google's monthly online polling of a random sample of Canadians and citizens from various countries. The latest data shows some key insights:
